FLR-4: Monthly return of transactions of foreign liquor effected by vendors and clubs (Form F.L.R. 4, Rule 15(ii), Bombay Foreign Liquor Rules, 1953). Format by Novota BEC, <https://novota.co/bec/>

How to fill it:

- Add up every brand in a class and pack size. FLR-4 has no brand rows; the class totals must equal the sum of the brand rows in your FLR-3A for the month.
- Classes: Spirits (Imported / Indian Made), 50 U.P. Wines (Imported / Indian), Fermented Liquors (strong beer) and Mild Liquors (mild beer), as declared in each beer's excise item type.
- Figures use the same bottles.pegs notation as FLR-3A (glasses for wines). Draught beer is in whole litres.
- Total = Opening + Received. Closing = Total – Sold to permit holders.
- No figure is ever negative. Write 0.00 in the closing row when a class and size has run out.

The Sample sheet is an illustration with made-up figures. Check the current form prescribed by the State Excise Department before you file.
